## Vision for the future

---

In order to provide holistic education, it is imperative to adopt a prudent approach. The college has lined up some projects for the future which are important for its overall development.

- a) Introduction of various Professional Courses has led to the need for construction of girls as well as boys hostel.
- b) The college owns the largest land area in Himachal Pradesh. Therefore, more residences for the teaching and non-teaching staff should be constructed in the existing Teacher's Colony.
- c) Keeping in view the record breaking achievements in the field of sports, a sports stadium is needed on a priority basis.
- d) The college is a hub of cultural activities for which an Auditorium is imperative for holding various events organized throughout the year.
- e) Due to retirements and various other reasons there is a paucity of staff in the administrative department. The existing staff strength is inadequate and more posts are required to be created in order to cater to the growing strength of students.
- f) Social science subjects, especially English, Political Science, History and Hindi, attract a large number of students. Number of posts in the said departments is not sufficient and need to be increased. Also, there is an urgent need for a Tabla instructor in the Dept. of Music.
