Report

Institutional Best Practice: Transforming Government Degree College Majheen into a "Breathing Campus":

Background

A comprehensive breathing assessment conducted at Government Degree College (GDC) Majheen revealed that 50% of students and faculty exhibited improper breathing patterns, characterized by irregular rates-either too rapid or too slow. Recognizing the critical role of proper breathing in overall health and cognitive function, the college initiated a structured program to address and rectify these patterns.

Initiatives Implemented

1. Educational Workshops

A series of interactive sessions were organized to educate participants on the significance of proper breathing techniques. These workshops covered:

- Physiological benefits of correct breathing, including enhanced oxygenation and stress reduction.
- Demonstrations of effective breathing exercises, such as diaphragmatic breathing and various other techniques.
- Practical applications of breathing techniques in daily life and academic settings.

2. Distribution of Educational Materials

To reinforce learning, participants received comprehensive materials detailing:

- Step-by-step guides to various breathing exercises.
- Visual aids illustrating proper breathing mechanics.
- Tips for integrating breathing practices into daily routines.

3. Regular Practice Sessions

Scheduled practice sessions were incorporated into the college timetable, allowing students and faculty to:

- Engage in guided breathing exercises collectively.

- Share experiences and progress, fostering a supportive community.
- Receive ongoing feedback and adjustments to techniques as needed.

4. Continuous Monitoring and Feedback

To ensure sustained engagement and improvement:

- Periodic assessments were conducted to monitor progress in breathing patterns.
- Feedback mechanisms were established, enabling participants to report challenges and successes.
- Success stories and notable improvements were highlighted to motivate the community.

5. Outcomes

- Over time, the college observed significant positive changes among participants:
- Improved concentration and academic performance, attributed to better oxygenation and reduced stress levels.
- Enhanced physical well-being, including reduced instances of respiratory issues and increased energy levels.
- A heightened sense of community and collective well-being, as shared practices fostered unity.

Conclusion

Through dedicated efforts to educate, practice, and monitor proper breathing techniques, GDC Majheen successfully transformed into a "Breathing Campus." This initiative not only improved individual health outcomes but also established a model of best institutional practice, demonstrating the profound impact of integrating holistic wellness programs into educational environments.

Report

Institutional Best Practice: Collective Energy Generation through Choral Singing

Context

At Government Degree College Majheen, a unique initiative was implemented to foster unity and enhance the collective energy of the college community. This practice involved the entire college- comprising 120 students and 15 staff members-participating in fortnightly choral singing sessions.

Objectives

1. **Enhance Community Cohesion:** Strengthen the bonds among students and staff through shared musical experiences.
2. **Promote Cultural Appreciation:** Encourage engagement with diverse musical traditions, including hymns, songs, pahari songs and bhajans.
3. **Boost Collective Morale:** Utilize the energizing effects of group singing to uplift the college community.

Implementation

1. Selection and Distribution of Songs:

- The music teacher selects appropriate songs, hymns or bhajans that resonate with the college's cultural ethos.

- Lyrics are distributed to all participants in advance, ensuring everyone is prepared for the session.

2. **Guidance and Practice:**

- The music teacher provides guidance on melody, rhythm, and pronunciation through brief practice sessions or instructional materials.
- Participants are encouraged to practice individually or in small groups before the collective session.

3. **Regular Choral Sessions:**

- Every month, the entire college gathers to sing the selected piece in unison. However, it is proposed to conduct these sessions fortnightly in future.
- These sessions are scheduled in post-lunch session or designated cultural periods.

Outcomes

- **Enhanced Unity:** Regular choral singing has fostered a sense of belonging and camaraderie among participants.
- **Cultural Enrichment:** Exposure to various musical forms has deepened cultural appreciation and understanding.
- **Elevated Energy Levels:** The collective act of singing has invigorated the college atmosphere, contributing to a positive and dynamic environment.

Conclusion

The practice of collective choral singing at GDC Majheen exemplifies an effective institutional strategy to harness the unifying power of music. By integrating this practice into the college's routine, the institution has successfully co-created a vibrant and cohesive community, setting a commendable example for others to follow.

In alignment with the college's commitment to promoting environmental sustainability, a Green Audit Team is hereby constituted to oversee, implement, and monitor eco-friendly practices within the college premises. The team will work collaboratively to achieve the objectives set forth in the Green Audit Report and to foster an environmentally responsible culture within our institution.

Composition of the Green Audit Team

1. Prof BaljitJamwal	Convenor
2. Ms. Mukta Mani	Member Secretary
3. Dr. NeelamKumari	Member
4. Ms. Mohini	Member
5. Mr Lucky	Member
6. Mr R. S.Sarooh (Office Supdt.)	Member

Role & Responsibility**Audit Planning and Implementation**

- Develop an action plan based on the Green Audit Report, covering areas such as energy conservation, water management, waste segregation, and biodiversity enhancement.
- Data Collection and Monitoring
- Regularly collect data on energy and water usage, waste management, and campus biodiversity.
- Monitor the implementation of recommendations and assess the progress of set goals.

Awareness and Engagement Initiatives

- a) Conduct awareness programs and workshops for students and staff to promote sustainable practices.
- b) Encourage student participation in "Eco-Club" activities, gardening, and environmental initiatives.

Quarterly Review and Reporting

- a) Prepare quarterly progress reports, highlighting achievements, challenges, and future plans.
- b) Submit the reports to the Principal for review and feedback.

Effective Date & Reporting

This order is effective immediately, and the Green Audit Team is expected to convene its first meeting within one week to initiate the planning process. The team will report directly to the undersigned.

Internal Green Audit

Government Degree College Majheen, Distt. Kangra (HP)

Overview

The internal green audit was conducted at Govt. Degree College, Majheen located in a rural, hilly area. This audit aimed to assess and improve environmental practices within a small institution with inadequate infrastructure, 120 students (mostly from underprivileged backgrounds and predominantly girls), and eight faculty members, offering courses in arts and commerce.

Objectives of the Audit

- a) Identify current practices regarding resource use and waste management.
- b) Establish practical, low-cost recommendations to enhance sustainability.
- c) Encourage environmental awareness among students and staff.

Key Findings

1. Energy Consumption

- a) Electrical appliances include ceiling fans, basic lighting, and a limited number of plug-in devices.
- b) Lighting consists mostly of incandescent bulbs.
- c) Energy-saving practices were not widely implemented.

Recommendations

- a) Replace existing lights with LED bulbs to reduce power consumption.
- b) Promote a "switch-off" policy for lights and fans in unoccupied classrooms.

2. Water Usage and Conservation

- a) Water is sourced from a local IPH supply with limited availability.
- b) Minimal water wastage was observed, but there is potential for conservation improvements.

- b) Encourage students to take part in "Eco-Club" activities and lead small sustainability projects.

6. Action Plan

Immediate Steps (within 1 month)

- a) Implement the "switch-off" policy for lights and fans.
- b) Set up waste segregation bins in classrooms.

Short-term Goals (within 3-6 months)

- a) Replace all bulbs with LED lighting.
- b) Initiate water conservation practices and raise awareness about mindful usage.
- c) Conduct initial awareness sessions on environmental sustainability.

Long-term Goals (1 year)

- a) Establish a rainwater harvesting system.
- b) Set up a green area with native plants and medicinal herbs around the new campus that is being developed presently.
- c) Maintain an annual "Green Day" for student-led sustainability activities.

7. Limitations

The current green audit faces significant limitations due to the college's restricted infrastructure, as it operates from a modest, shed-like building with only two classrooms. This setting lacks the facilities typically required for a comprehensive green audit, such as designated areas for waste management, water conservation structures, and sufficient green cover for biodiversity initiatives. Additionally, limited space and resources restrict the scope of implementing certain long-term sustainability measures. However, with the construction of a new campus underway and expected to be completed within the next six months, future audits will have enhanced capacity for thorough environmental assessments and greater opportunities to integrate sustainable practices across a full-fledged campus. This new infrastructure will allow the college to adopt a more holistic and impactful approach to environmental responsibility.

Conclusion

The green audit identified several low-cost, high-impact measures that can help the college reduce its ecological footprint. Implementing these recommendations will foster a sustainable environment and create greater awareness among students and faculty. The college's proactive steps in addressing environmental issues will contribute to a greener, healthier campus over time.

TO WHOM IT MAY CONCERN

This is to certify that Government Degree College, Majheen has officially adopted Majheen under its Social Outreach Initiative (Extension Activities through Community Service) in the session 2023-24. Since the adoption of our village, NSS volunteers and other students from GDC Majheen have actively participated in various activities that have contributed significantly to the welfare and cleanliness of our community. The following activities have been carried by the students in our village:

- **Cleaning of Natural Water Bodies:** Volunteers have cleaned and maintained the natural water bodies in the village on 30/09/2023, 11/11/2023 and 27/12/2023 ensuring the availability of clean and uncontaminated water.
- **SVEEP Activities:** Student volunteers of GDC Majheen promoted voter awareness through the "One Volunteer, One Family" initiative from April 2 to April 22, 2024, to ensure full voter participation in the great festival of democracy.
- **Plastic Collection Drive:** A plastic collection drive was organized on 05/08/2023, 02/10/2023 and 18/11/2023 during which volunteers collected and disposed of plastic waste from various parts of the village, promoting a cleaner and greener environment.

These efforts have been greatly appreciated by the villagers, and we are thankful to GDC Majheen for their continuous dedication towards improving our village. We proudly endorse these activities and extend our gratitude to all involved.

Memorandum of Understanding (MoU)

Between
Govt. Degree College Majheen
And
Govt. Senior Secondary School, Majheen

Purpose:

This Memorandum of Understanding (MoU) is made and entered into by and between Govt. Degree College Majheen and Govt. Senior Secondary School, Majheen with the intent to collaborate for the purpose of knowledge and resource sharing. The collaboration is aimed at enhancing educational experiences and academic excellence by pooling resources, expertise, and infrastructural facilities. This MoU represents the mutual understanding and goodwill of both institutions in their effort to foster educational collaboration for the benefit of students and the academic community.

Scope of Collaboration:

1. Academic Resource Sharing

- i) Sharing of academic materials such as books, journals, and digital resources.
- ii) Organizing joint academic workshops, seminars, and conferences for students and teachers.
- iii) Facilitating guest lectures and educational sessions by subject experts from both institutions.

2. Infrastructure sharing and mutual access to libraries, computer labs, etc.

- i) Allowing the use of classrooms, halls, and other infrastructure for academic events or extracurricular activities.
- ii) Student Engagement and Development.

3. Organizing joint academic events, cultural activities, and competitions

Conducting mentoring programs where senior college students can assist school students in academic development.

4. Faculty Collaboration

- i) Faculty exchange for capacity building and knowledge sharing.
- ii) Participation in joint faculty development programs and training sessions.

Duration:

This MoU is valid for a period of five years, effective from the date of signing, i.e 8th November, 2023 and may be extended upon mutual consent.

Terms of Amendment and Termination:

- i) Any amendments to this MoU shall be made in writing with mutual agreement between both institutions.
- ii) Either party may terminate this MoU by providing two months written notice to the other party.

Dated: 05/04/2024

Report on NSS Activities in Majheen Village (Session 2023-24)

In the academic session 2023-24, the NSS Unit of GDC Majheen undertook a significant initiative by adopting Majheen village for community development activities. The primary focus of our efforts was to enhance environmental sustainability and foster community welfare through various initiatives. The NSS volunteers embarked on several activities aimed at improving the village environment and raising awareness among local residents about environmental conservation. The main projects included:

- 1. Cleaning of Water Resources:** The volunteers initiated the cleaning of water resources in and around Kotu Doryan and the main market area of Majheen. This involved removing accumulated debris, clearing bushes, and ensuring that the water bodies were free from pollutants. The goal was to restore these resources to their natural state and promote clean water access for the community.
- 2. Plastic Waste Management:** A significant portion of our efforts was dedicated to managing plastic waste. Volunteers conducted extensive clean-up drives in the market and surrounding areas to remove plastic waste. Additionally, awareness campaigns were organized to educate locals about the harmful effects of plastic on the environment and ecosystems. This included workshops and interactive sessions aimed at promoting sustainable practices and reducing plastic consumption.
- 3. Social Activities and Community Engagement:** Beyond environmental initiatives, NSS volunteers actively engaged with the local community through various social activities. This included organizing health camps, educational workshops, and cultural events to promote holistic development and community bonding. These activities not

only enriched the lives of residents but also strengthened the bond between the NSS Unit and the villagers.

Implementation and Impact: The implementation of these projects was carried out in phases throughout the academic year. Volunteers worked tirelessly, dedicating weekends and holidays to ensure the successful execution of each initiative. Regular progress assessments and feedback sessions helped in refining our approach and maximizing impact.

The impact of our efforts was notable:

- **Environmental Improvement:** Significant reduction in plastic waste in targeted areas, cleaner water resources, and a visible improvement in the overall cleanliness of the village.
- **Community Awareness:** Increased awareness among villagers about environmental conservation and sustainable living practices. Many residents actively participated in our initiatives and adopted eco-friendly behaviours.
- **Social Cohesion:** Strengthened community ties through collaborative activities, fostering a sense of unity and responsibility towards village development.

In conclusion, the NSS Unit of GDC Majheen's adoption of Majheen village in the session 2023-24 has been a resounding success. The combined efforts of our dedicated volunteers have contributed significantly to environmental sustainability, community welfare, and awareness enhancement. Moving forward, we remain committed to continuing our efforts and expanding our impact for the betterment of Majheen and its residents.

AWARENESS OF ELECTORALS

A program on awareness of electors was organized under SVEEP at Government Degree College Majheen on 4th April 2024. It was organized under the able guidance of Principal Dr. Chandan Bhardwaj. Students of B.A.2nd and 3rd year were sensitized by Prof. Aarti Gupta to have their voter card and cast vote. SVEEP is a flagship program of Election Commission of India for voter education, spreading voter awareness and promoting voter literacy and enable every citizen to register as voter and cast his/her vote at every election in an informed and ethical manner.

All the students belonging to different units were directed to spread voter awareness under “ **One volunteer –One family** ” awareness campaign in which **each volunteer shall motivate and aware one family of his/her locality/residential area besides his/her own family for verifying /registering their names in electoral roll and ensure participation in elections – “the great festival of Democracy”**. The students were guided to motivate their neighbors and relatives to develop a chain of democracy and share photographs of the same. The students of Government Degree College Majheen participated in this awareness campaign from 2nd April to 22nd April 2024 and motivated their neighbours and acquaintances to participate in elections.

Memorandum of Understanding (MoU)

Between

Govt. Degree College Majheen, Kangra (HP)

and

Trisha College of Education, Hamirpur (HP)

Objective

This Memorandum of Understanding (MoU) is made and entered into by and between Govt. Degree College Majheen and Trisha College of Education Hamirpur with the intent to collaborate for the purpose of knowledge and resource sharing. The collaboration is aimed at enhancing educational experiences and academic excellence by pooling resources, expertise, and infrastructural facilities. This MoU represents the mutual understanding and goodwill of both institutions in their effort to foster educational collaboration for the benefit of students and the academic community.

Scope of Collaboration

1. Academic Resource Sharing

- i) Sharing of academic materials such as books, journals, and digital resources.
- ii) Organizing joint academic workshops/ seminars/conferences for students and teachers.
- iii) Facilitating guest lectures and educational sessions by subject experts from both institutions.

2. Infrastructure sharing and mutual access to libraries, computer labs, etc.

- i) Allowing the use of classrooms, halls, and other infrastructure for academic events or extracurricular activities.
- ii) Student Engagement and Development.

3. Organizing joint academic events, cultural activities, and competitions

Conducting mentoring programs where BEd college students can assist Govt College students in academic development.

4. Faculty Collaboration

- i) Faculty exchange for capacity building and knowledge sharing.
- ii) Participation in joint faculty development programs and training sessions.

Duration

This MoU is valid for a period of five years, effective from the date of signing i.e. 16th February, 2023 and may be extended upon mutual consent.

Terms of Amendment and Termination

- i) Any amendments to this MoU shall be made in writing with mutual agreement between both institutions.
- ii) Either party may terminate this MoU by providing two months written notice to the other party.
